The anxiety to hear from Camp Taylor is becoming intense, and the news, when it does come, will, doubt-less, be of the most exciting character. Every evening, from five to ten o'clock, the newspaper offices are crowd-al with citizens, conversing on the probabilities of suc-

al with citizens, conversing on the probabilities of suc-cess or defeat to Gen. Taylor.

This evening, a grand turn-out meeting is to be held at Monument Square, to take into consideration the hostile position of the two countries, and to adopt such measures as may be deemed necessary for the honor and welfare of the country. Generals Houston and Rusk are to ad-dress the meeting; and, as a matter of course, the people will be there in their might and majesty. The Hon Reverdy Johnson, and Senstor Hannegan, will also ad-dress the meeting.

Our young men who have volunteered for Texas, are still encamped in considerable numbers, in the vicinity of the city. They are perfecting themselves in military knowledge, and anxiously awaiting an order from the War Department, for their enrolment in the public service. If the services of these, and other volunteers, is not accepted soon, it can hardly be expected that they will be able to continue organised in camp much longer, but must break up their organization, and seek employment to obtain means of subsistence, as I anticipate but very few of them have the wherewithal to sustain themselves much longer.

The important intelligence brought by the mail this morning, has been spread through every quarter of the city by inpumerable extras, issued from the prolific presses of our various newspapers. It did not reach the city by telegraph, as the operators determined yesterday evening, in consequence of a storm of rain, not to remain on duty, as they knew the wet would, in connection with the posts form a mode of commanication with the ground, and thus dissipate the fluid so as to render the transportation of despatches impossible. This belief turned that to be well founded, as, up to 9 o'clock this morning, they had not been able to receive or transmit a measage. The seteamboat Robert Morris arrived with the mail about a quarter past six o'clock, but the knowledge that she was the hearer of glorious news, was conveyed to the few persons on the wharf awaiting her arrival, by the flags and streamers with which she was belocked I was deprived of the pleasure of transmitting the intelligence, by the activity of one of or your indelatigable agents, who had come on for the purpose from Baltimore.

There was but little done in stocks on Saturday, few changes in the rates since Friday. The Mexican difficulties, together with the warm weather, have had a tendency to cause a general heaviness in the market. Several small sales were made of cotton, to spinners, &c., at 8\(\frac{1}{2}\) a 9\(\frac{1}{2}\) for uplands. No activity in the flour market: common and fair brands are held nominally at \$4.25\(\frac{1}{2}\) buyers are holding back, and offer less rates. treacherous people and defy their approach, (for which brave service they deserve the devoted gratitude of the whole aution.)

The excitement in the College chapel was very great, and I am sure, had there been a call for soldiers at that moment, the whole would have volunteered to a man. As one young gentleman closed (his name has escaped me) with a very cloquent appeal to their patriotism, the following resolutions were offered by Mr. Hilderbrand, and unanimously adopted by the students:—

Resolved, That the doubtful state of affairs which now exists between our country and Mexico should engage the attention of the students of Yale College with that importance in which they hold their patriotism.

Resolved, That as hostilities have already been commenced, and we do not know at what moment forces may be required from different parts of our country, we, the students of Yale College Regulars, 'to consist of four divisions; that each division choose its own officers; and that, as manly and martial exercises much become us in our sedentary pursuits, we parade each day, except flunday, between the hours of eleven and one o'clock, until our difficulties with Mexico shall be settled, or a call for our aid shall be made.

Resolved, That a committee, to consist of the officers of this meeting, do wait upon the Mayor of this city, and request of him the use of the city armory, that we may more successfully train ourselves to military labor.

The above are the resolutions which were adopted by the students, for a copy of which I am indebted to Mr. Chaplin, secretary of the meeting. I am anxious that the proceedings of this meeting should go before the public, as the influence of every such meeting must strengthen the bond of our union. I hope, therefore, if your columns are not filled with more important information, you will give a place to the above remarks and resolutions.

OR LIQUID HAIR DYE, for changing the color of the hair to any required shade of black or brown, in a few minutes, by a simple and easy process, without staining the skin, or in any way injuring the hair. The great advantages possessed by this Hair Dye over those hitherto in use, will be at once apparent. It produces a perfectly natural color, in a comparatively short space of time; and much of the trouble and annoyance attending the use of all former Dyes, are entirely obviated in this. For producing the lighter shades of brown, the Atrapilatory may be said to be the only preparation through which a statisfactory result cam be relied on; and in addition to the color having so close a resemblance to that of nature, as completely to dely detection, the use of the Dye will be found in no respect injurious to the hair, which, after the operation, will retain its accustomed softness, clasticity, and gloss. With gareat regard, your friend,

Mr. Van Kleeck was formerly Sheriff and Clerk of Albany city and county, and recently in the War Department at Washington.

Dr. Townsend-Being afflicted with dyspepsia for a long time past. I have endeavored frequently to eradicate it from the system by the use of physic in various forms, but I found out, at last, the more I used physic, the weaker the organs of life became, rendering uncertain the prospect of effecting a cure Recently this complaint developed itself fearfully, causing ulceratious about the throat, traches, impairing seriously the organs of life in their physical functions. In this State I was recommended to try your Saraparilla Syrap, after using two bottles I faid myself relieved from this complaint, and all its distressing symptoms. I umy case, by its life-giving influence, it has restored the system to its natural state. My confidence in its power to effect a cure, in case of general function derangement of the organs of life, impels me to recommend your Saraparilla to the afflicted.

Your, &c. JAMES McALLISTER, M. D.

was relieved of the dyspepsis of several years' standing by this pleasant remedy.

PALPITATION OF THE HEART.

Mrs. Sarah Collins, 200 Washington street, Brooklyn, had the palpitation of the heart, severe heartburn, fainting and sick caining sensations for several years—was entirely cured by taking two bottles.

Mr. Whitmor, Bergen, New Jersey, was afflicted with the palpitation of the heart, and pains in the back and shoulders, os severe as to be unable to sleep nights—was entirely restored to health by using one bottle.

John Baxter, 117 Fulton street, cured of mercurial ulcers. Charles Edwards, 123 Greenwich street, cured of terrible sores, which covered his whole body, attacking his throat and eyes; was eight months in Quebec Hospital, and pronounced incurable—was perfectly restored by the use of two bottles.

and eyes; was eight months in Quebec Hospital, and pronounced incurable—was perfectly restored by the use of two hottles.

Mrs. McCullum, No. 136 Third avenue, severe pains and dixmens in the head, informs us she is, as she believes, permanently restored.

Mrs. Wheelwright, 51 Cherry street, severe pains in breast and side; was unable to raise a chair; took two bottles and is now enjoying good health.

LIVER COMPLAINT.

Alfred T. Conklin, 335 Madison street—wife cured of the liver complaint.

Mrs. White, keeps an extensive bearding house No. 2 State street, had liver complaint—life was despaired of—was cured by using the Saraparilla.

Joshua Morton, 40 Morton street, wife cured of disease of blood, and sou of bad sores on head and body.

RHEUMATISM

The astonishing cures that this medicine has performed in cases of chronic rheumatism, are indeed wonderful.

Dr. Townsend—l was a tacked with a distreasing pain in my hip joint, so bad that I could not walk without crutches, and much of the time I was obliged to keep my hed. I tried several remedies, but they did not relieve met; I then called no noe of our first physicians, he sid not help. I heard of your Sarsaparilla, and obtained a bottle, and in a few days it entirely cured me, and I am as well now as ever.

ABSHBELL WALKER, 22 Daniel st.

Albany, Jan. 2, 1855.

Hear Mr. Seth Terry, one of the oldest and most respectable lawyers in Hartford, Coan.—The following is an extract of a letter received from him:—

Dr. Townsend—I have used one bottle of your Sarsaparilla, and dad it is excellent in its effects upon a chronic rheumatic pain to which I am subject, from an injury occasioned several years ago in a public stage. Please send me two bottles to the care of Dr. Seymour. I have conversed with two of our principal physicians, and recommended your Sarsaparilla.

Hartford, March 12, 1865.

William Lippincott, 225 Water street, was unable to leave

Mrs. Conquest, 137 Broome street, cured of nervous debility and a variety of complaints. This lady was so severely alfected that part of the time she was unable to sleep, or even converse with her friends.

A. N. Chapin, Agent for Wm. Talor, Astor House-daughter had the small pox very severely—he gave her this Sarnaparills—it drove it out and dried itsy directly, and left her without any scars. Mr. C. informs us that a friend of his, residing in Jersey City, was sick with the amall pox, and he advised him to use it he done so with perfect success, and nas no scars. What is most singular in these two cases is, the families used this Sarsaparilla, and all escaped the disease.—From a variety of other cases that have been reported, we believe that by cleansing the blood with this Extract, it renders the person arie against this or the erysipelus, which diseases are very prevalent and fatal at the present time in all of the arge cities.

By-Townsead's Sarsaparilla is a sovereign and speedy cure for incipient countemption, barrenness, lucorring, or whites, obstructed or difficult menatruation, incontinence of urine, or involuntary discharge thereof, and for the general prostration of the system, no matter whether the result of inherent cause or causes, produced by irregularity, illness or accident, [J]. Nothing can be more surprising than its invigorating effects on the haman frame. Persons, all weakness and lassitude before taking it, at once become robust and full of energy under its influence. It immediately counteracts the nerveleaness of the female frame, which is the great cause of barrenness.

It will not be expected of m. in cases of an delicates a same.

lessness of the female frame, which is the great cause of barreaness.

It will not be expected of us, in cases of so delicate a nature,
to exhibit certificates of cures performed, but we can assure
the afflicted, that handreds of cases have been reported to us
Several cases, when families have been without children, after
using a few bottles of this invaluable medicine, have been
blessed with healthy offspring.

Dr. Townsend-my unite being greatly distressed by weakness and general debility, and suffering continually by pain and
a sensation of bearing down, falling of the womb, and with
other difficulties, and having known cases where your medicine has effected great cures, and also hearing it recommended
for such diseases as I have described, I obtained a bottle of
your Extract of Sarsaparilla, and followed the directions,
you gave me in a short period it removed her complaints and
restored her health. Being grateful for the benefits abe received, I take pleasure in thus acknowledging it, and recommend it to the public.
